

Marketing Solutions

Expand your Marketing Potential and Watch Sales Grow

More than fifty percent of fuel customers never leave the forecourt, which means a substantial portion of your sales and profits are driving away. To make the most of your sales potential, you need a dynamic marketing approach to capture consumers' attention and entice them into the store where they can make high margin purchases. Dresser Wayne is revolutionizing retail promotional capabilities with the same technology innovation we apply to our fueling equipment. We offer a range of products that deliver exciting marketing possibilities and help influence consumer buying behavior from the forecourt to the store.

iX™ Media Digital Merchandising

Drive in-store sales from the forecourt

Part of the award-winning iX Technology Platform, iX Media digital merchandising enables customized promotions at the dispenser. Increase revenue by targeting your marketing efforts to customers' needs moment-to-moment. You can tailor promotions by time of day, site location and customer buying patterns. Advertise coffee in the morning and sandwiches at noon as well as car washes, loyalty programs and premium fuel at any time.

A standard offering in Ovation® iX fuel dispensers and an option in some of our other dispenser models, the iX Media merchandising solution features a 10.4" full-color display with full-motion video, built-in speakers and coupon-creation capabilities. It is also simple to use. With EK3 Technologies' online iX Media Store you can easily manage marketing content. Download product photographs from top vendors, add your custom messaging and pricing, and then distribute to your sites through our intuitive Web interface.

iX Technology Platform

Five innovative solutions, one groundbreaking platform

Enabling retailers to add powerful feature sets to Dresser Wayne dispensers, the iX Technology Platform currently supports five product extensions that help lower operating costs, streamline device control, reduce unexpected downtime, and increase profitability.

- iX Pay Secure Payment
- iX Media Digital Merchandising
- iSense™ Remote Monitoring
- iDPOS™ In-Dispenser POS
- Fusion™ Universal Site Controller

Increase high margin sales with superior marketing

- Full-motion graphic displays
- Barcode-scannable coupons printed at the dispenser
- Advanced promotional capabilities
- Innovative ways to reach customers
- Simplified multi-site marketing

C-Store Media

Connect in-store and forecourt marketing

Complementary to iX Media merchandising, C-Store Media brings your forecourt promotions indoors through dynamic in-store full-color, full-motion displays. An innovative multimedia merchandising system, it leverages the power of repetition to engage shoppers on an emotional level and influence customer purchasing decisions.

A turnkey solution, C-Store Media's advanced technology enables you to easily customize and manage content. Similar to the iX Media solution's functionality, a Web-based interface allows you to upload vendor promotions or create your own advertisements through digital content leader EK3 Technologies.

Nucleus® POS System

Combine promotions to boost high margin sales

In addition to offering exceptional touch screen POS functionality, the Nucleus POS system delivers sophisticated marketing capabilities. It allows combination promotions by supporting up to nine simultaneous discounts at the fuel dispenser. You can increase sales through specials such as buy-one-get-one-free or discounts for multiples of the same item. Marketing can also be targeted to the time of day or season, and discounts can be bundled according to buying patterns by time and location.

Enterprise Management

Secure, remote POS system management

Efficiently, securely and conveniently manage marketing programs through your Nucleus POS systems across multiple sites from one central location. Enterprise Management allows you to implement promotional offers, change pricing and access important data at several sites simultaneously. What's more, Enterprise Management operates behind your firewall for exceptional security that meets PCI and Visa data security regulations.

About Dresser Wayne

With offices on five continents, manufacturing facilities on four, and thousands of employees worldwide, Dresser Wayne has shaped the retail and fleet fueling industry ever since its modest beginnings in 1891. Known for combining cutting-edge technology with exceptional customer focus and win-win industry partnerships, Dresser Wayne has become the leading supplier of integrated solutions to its customers in the retail and fleet petroleum industry. Dresser Wayne—headquartered in Austin, Texas—is largely responsible for the innovations that contribute to the look and functionality of the modern service station. From dispensers and POS systems to retail intelligence and after-sale support services, Dresser Wayne is committed to continuing its long tradition of providing innovative, customer-centric solutions in all facets of the industry. Dresser Wayne is a business segment of Dresser, Inc.

Protect your warranty, security, and regulatory certifications. Insist on Dresser Wayne Genuine Parts for all equipment repairs and upgrades.
